I am currently seeking a position where I can enhance my knowledge, skill and experience to enable me to grow in my career.

EXPERIENCE

MARCH [REDACTED] - CURRENT

NURSING SUPERVISOR, [REDACTED] MEDICAL CENTER

Coordinates with the Clinic Manager, Medical Director and other staff to set appropriate goals for the clinic. Communicate clinic goals to employees and ensure that they have the tools and means necessary to achieve them. Suggest solutions to patient care crisis problems and complaints. Supervise clinical staff daily, coordinating nursing activities with practitioners. Ensure that Infection Control/Exposure Plans are understood and followed by staff. Prepare clinical staff schedules. Monitor, edit and sign off on staff timecards each pay period. Assist in hiring new employees and coordinate subsequent training and orientation programs. Conduct employee performance evaluations for supervised staff. Follow-up to ensure that appropriate actions are taken following the review.

JULY [REDACTED] - MARCH [REDACTED]

CHARGE NURSE, [REDACTED] CENTER

Serves as a leader and clinical resource to staff for a 38 medical surgical unit. Acts as a role model, demonstrating technical/clinical competence consistent with the needs of the staff and the patient population served. Assists staff with problem solving and critical decision making. Collaborate with the primary staff or team leader to ensure the planning and delivery of quality patient care in partnership with physician, interdisciplinary team and patient/family.

JULY 20 [REDACTED] - JULY 20 [REDACTED]

REGISTERED NURSE, [REDACTED] MEDICAL CENTER

Administers medications (e.g., topically, orally, intramuscularly, subcutaneously and intravenously). Assesses patient to include physical, psychosocial, cultural, behavioral/emotional, developmental and spiritual needs. Gathers data relevant for patient care. Implements appropriate patient interventions and evaluates outcomes. Plans care appropriately based on needs identified during initial and on-going assessments. Prepares patient for discharge and assists with coordinating post discharge needs. Incorporates critical thinking into daily practice. Prepares patient for examination/procedure. Assesses, monitors, and intervenes as indicated during and post examination or procedure. Provides health care education and guidance to patient and/or families. Educates regarding results, findings and diagnoses to patient and/or patient's family within scope of practice. Serves as a leader and clinical resource to staff for a 38 bed medical surgical unit. Acts as a role model, demonstrating technical/clinical competence consistent with the needs of the staff and the patient population served. Assists staff with problem solving and critical decision making. Collaborate

with the primary staff or team leader to ensure the planning and delivery of quality patient care
