

Patient-focused MSN Registered Nurse with just over 11 years of experience in education, clinical management (including chart reviews and audits), chemo infusion, emergency care, intermediate critical care, cardiovascular and neuro progressive care, geriatric care, acute rehabilitation care and behavioral health care.

0/███ – CURRENT

INFORMATICS RN, ████

I started as a chemo infusion nurse and switched to nursing informatics where I help to run reports assist with Epic enhancements as needed.

10/███ – CURRENT

FACULTY ASSOCIATE, ████ COLLEGE OF NURSING

I am currently a faculty associate that can pick up classes when able. I have taught NUR337 which is a first semester lab course which includes skills and sim, as well as, NUR519 which is a transition to practice class for master's students who are graduating as new graduate RN's but with a master's degree.

09/███ – CURRENT

ADJUNCT FACULTY, ████ COLLEGE

I help with both lab and clinicals in all semesters of the BSN program. This includes grading care plan SBAR's, projects and any other clinical assignments they may have throughout the course of their clinicals. We also debrief at the end of everyday which I then can use as a tool for learning and guiding the students in the directions they desire.

08/███ – CURRENT

ADJUNCT FACULTY, ████ UNIVERSITY

I help with both lab and clinicals in all semesters of the BSN program. This includes grading care plan SBAR's, projects and any other clinical assignments they may have throughout the course of their clinicals. We also debrief at the end of everyday which I then can use as a tool for learning and guiding the students in the directions they desire.

9/20███ – 09/20███

INFUSION RN, ████

I am a chemo certified RN that works in the infusion side of the oncology doctors office. I help to access ports, start IV's and run chemo as well as Iron and other IV drugs as prescribed. We also stock, enter charges, chart and educate the patients, as well as answer any questions they might have.

1/202█ – 8/20███

ASSISTANT CLINICAL PROFESSOR, ████ STATE UNIVERSITY

I taught in person and online courses to undergraduate RN students including clinical rotations in the hospitals. I created lessons and helped the students whenever possible.

12/2018 - CURRENT

STARN INSTRUCTOR, [REDACTED] SOLUTIONS

Didactic Education to new graduate RN's (In-person & Online) as well as skills and simulation. Teach a variety of specialties including ICU/PCU/ER/MS/Behavioral I travel and teach all over the US. I also worked as an ER RN PRN.

3/2017 - 11/2016

ER RN, [REDACTED] HEALTH

I worked in a free-standing ER where we triaged, treated and discharged patients of all acuity levels. We also completed inventory, chart reviews and audits, ordering supplies, cleaning and ran most of our own labs.

3/2015 - 3/2014

ER RN/CLINICAL MANAGER, [REDACTED] HEALTH

I started working in a PCU unit and became clinical manager after 1 year. We opened an IMCU unit on our floor, so I was cross trained and worked in the IMCU as needed. I then stepped down and went to a level 1 trauma ER to gain more experience and after 3 years became clinical manager again.
