**WORK EXPERIENCE**

---

**██████████ Medical; ██████████ AZ. | Primary Care Provider | June 20██████████**

Providing safe, effective, Primary care management for chronic and acute care management, including minor procedures. Provide analysis and collaborate with clients regarding several available in office technologies for analysis of chronic condition progression and management, or new condition evaluation diagnosis. Collaborate with other providers to provide best care for our community.

**██████████ (Now w/ ██████████; ██████████ AZ. | Primary Care Provider | September ██████████**

Provide safe, effective care for mostly Medicare Advantage Plan members, patient outcomes and relationships are priority, not throughput of the clinic. Prioritized long term health planning and worked with seniors to develop a plan to achieve personal goals and uphold values with regard to plan of care. Executed judicious use of resources for managed plan members via critical analysis of patient needs, available resources, current health status, and incorporated deprescribing when necessary and discounting use of necessary referrals for chronically stable conditions.

**██████████ Healthcare ██████████ ██████████ AZ. | Staff Nurse | February ██████████ ██████████**
